

Part 1

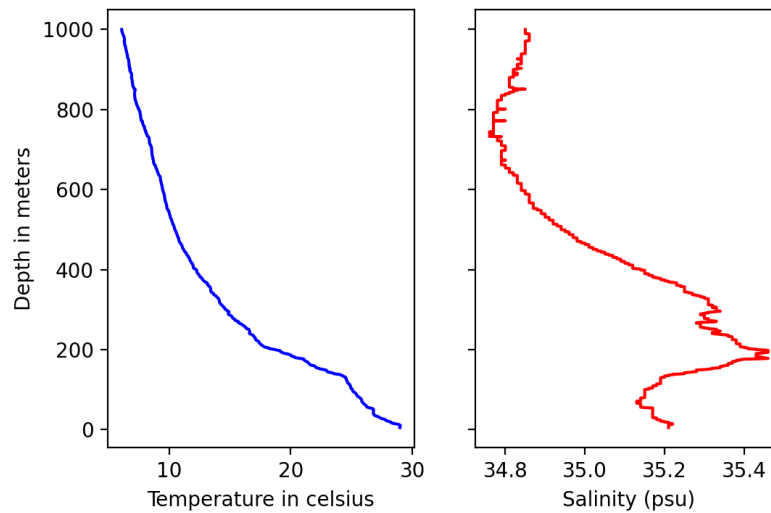

Figure 1: Temperature and salinity profiles from CTD at location 1, to depth 1000m.

Part 2

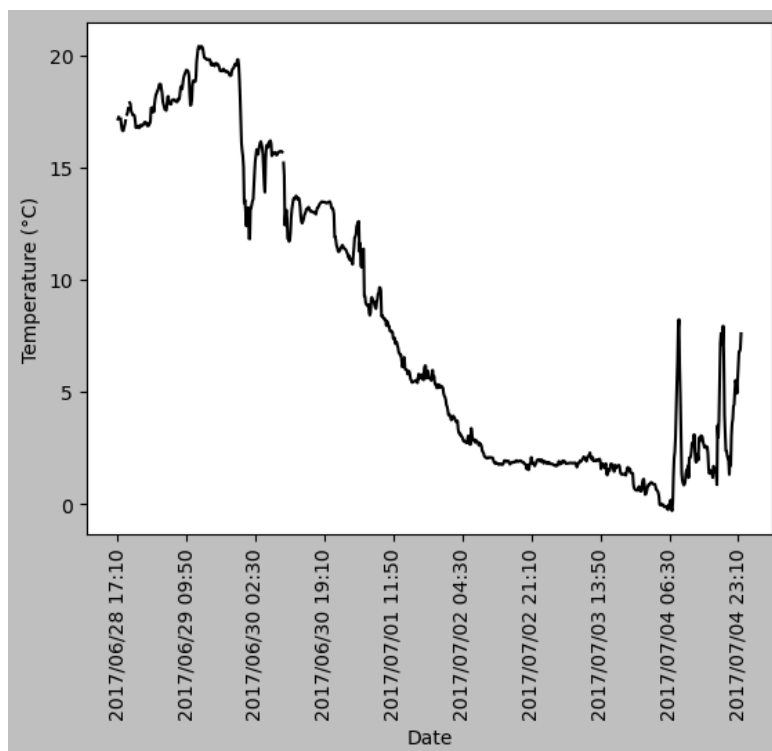

Figure 2: Time series of Temperature from the 2017 winter trip of Agulus II. Departure date (26/06/2017) to southmost point reached (04/07/2017)

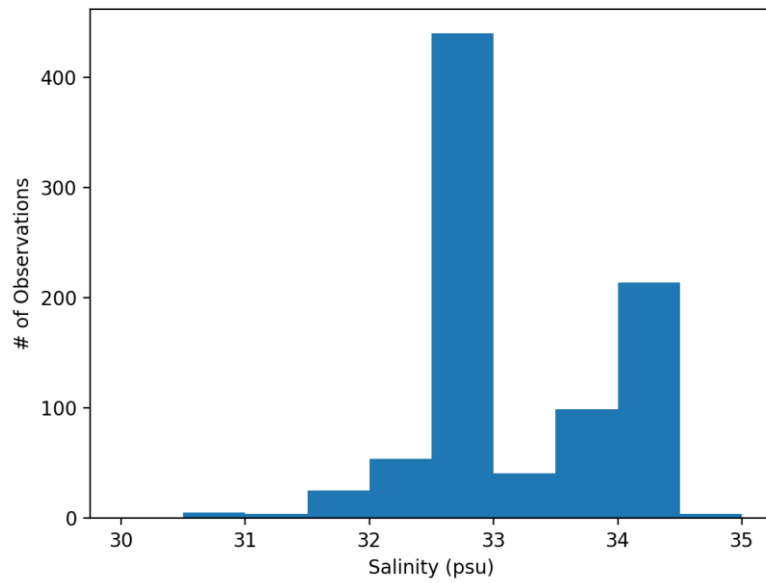

Figure 3: Histogram depicting number of observations within a salinity (psu) range. Data collected between 28/06/2017 and 04/07/2017 during Agulus II winter trip.

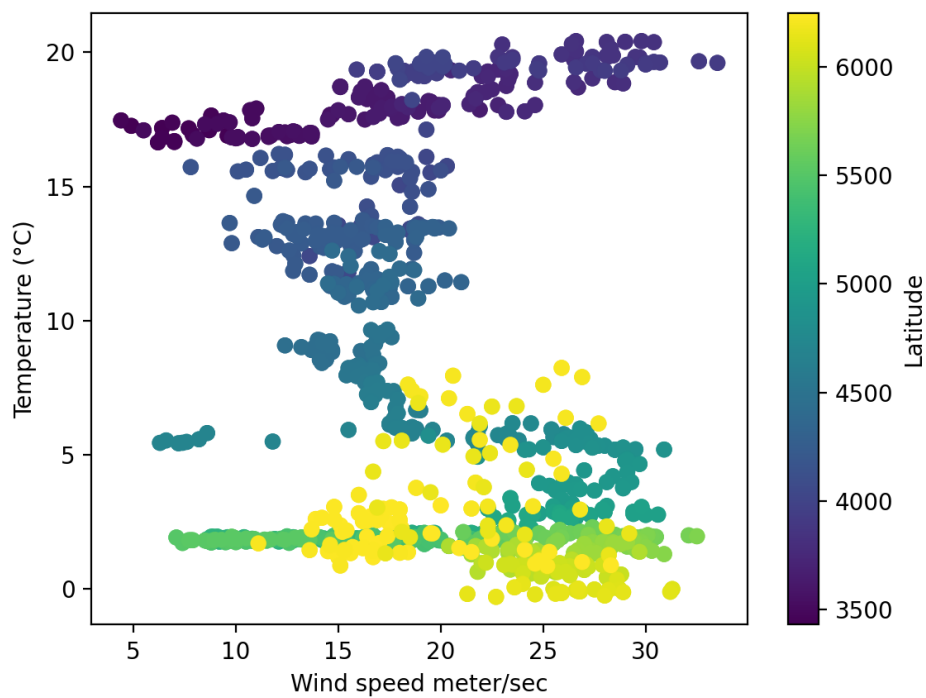

Figure 4: Scatterplot showing temperature in relation to wind speed, denoted by latitude. Data collected between 28/06/2017 and 04/07/2017 during Agulus II winter trip.
